

Lac la Biche Herald

Vol. 13, No. 41

EDMONTON, ALBERTA, SATURDAY, OCT. 8, 1960 Section One—8 Pages 10c PER COPY

Poison Centres Opened In Province

THE COMPLETELY RE-STYLED FORD for 1961 will present a slimmer and shorter exterior than the 1960 model and will incorporate the "classic Ford Straight line design" in hood, roof and deck lines. All this has been accomplished with no sacrifice of interior roominess. Numerous engineering improvements are also incorporated in the 14 models that

include two new models, a Galaxie Club Victoria—a two door hardtop—and a six passenger Country Squire station wagon. Two standard engines, the "mileage maker" six and the Thunderbird 332 V-8 are augmented by an optional Thunderbird Special 390 V-8. The 1961 Ford cars will be available at all Ford of Canada Ford-Monarch-Falcon dealers.

Town Of Lac La Biche Takes Over Gas System Ownership, Operation

LAC LA BICHE — Although official turn-on ceremonies for natural gas were held on Sept. 26, the town did not take over ownership and operation of the system until Oct. 1.

At 9:00 a.m., Saturday, a meter at the well head was read by employees of Northland Utilities Co. and Banister Construction Co. and from that hour the town was responsible for all gas metered at the wells. Northland Utilities Co., who operated a line to their plant for a year, will now be purchasing gas from the town instead of directly from Sage Oils.

Over 200 services have been installed to customers in town, and each day will see a number of meters installed as customers begin heating and cooking with gas.

A brand new GMC pick-up truck for use of the gas foreman, Earl Christensen, was initiated into

service Saturday and will soon become a common sight as it takes Mr. Christensen from place to place in the course of his duties.

Lake Level Has Dropped

The level of Lac la Biche has dropped slightly. Water Resources engineers say that even this small drop is a very good indication that a fair measure of success has been achieved.

The flow in the Owl River has lessened, and Lac la Biche River is taking more out of the lake.

Good weather and the clearing of weeds at the mouth of Lac la Biche River have combined to bring about the lower level of the lake. Weed cutters are working right up to the mouth of the river.

The prospect of digging a canal to the Beaver River to drain the lake so far doesn't look economically promising judging from a recent survey. However, this possibility is still under consideration as further investigation is taking place.

Betty Yearbury Addresses School

CASLAN — Miss Betty Yearbury visited the Caslan school one morning and gave talks on the Maori people, the natives of New Zealand.

Mrs. Walter Meyer accompanied her cousin, Miss Yearbury, to Edmonton. The latter is en route home after touring in Europe, the British Isles, United States and Canada for the past eight months.

TOURS EUROPE FOR M-F, TELLS STORY IN "CL"

Alberta livestock breeders will be particularly interested in a report by Clare Burt, Massey-Ferguson, farm reporter, on his 20,000 mile tour through eight European countries. His study of agricultural conditions in northern Europe, which he will use in future farm programs, is reported in condensed form this week in Alberta Country Life.

Car And Binder Damaged In Mishap

HYLO — George Wasylinchuk's car and S. Gushinsky's binder collided as Mr. Gushinsky was pulling it home at night. Blinded by the tractor lights, Mr. Wasylinchuk failed to see the binder.

Damage resulted to both the car and the binder.

Gregory Coast Receives Burns When Lighted Gas Lamp Upsets

LAC LA BICHE — Several accidents of a serious nature have befallen residents of the town recently. Gregory Coast, 13-year-old son of Mr. and Mrs. W. E. Coast, is in hospital recovering from severe burns on his ankles received when a lighted Coleman gas lamp overturned.

The lad and a companion were visiting at the home of a friend out of town and were assisting in lighting the lamp on the back step of the home.

When the lamp overturned, flames shot out setting fire to Gregory's trousers and socks. The fire was quickly extinguished but not before the flames had penetrated to the boy's flesh.

Dr. Mackie, Athabasca Health Unit, Speaks At Home And School Meeting

LAC LA BICHE — The first meeting of the Home and School Association for the new school term was held in the Dr. Swift School Friday, September 30, with L. J. Bartman in the chair.

Mrs. Lucille Joncas reported that a plan had been arranged whereby with assistance from Mrs. D. Turgeon, Mrs. Jackie Wolstenholme, Donna Hamar and Anita Senetza, she would be able to undertake to teach piano lessons to those wishing to enroll. Lessons would be given weekly and the cost would be \$1.50 per lesson.

Mr. Bartman reported that a Learn-to-Swim campaign had been conducted by the Home and School during the summer with 109 pupils enrolled. The chairman commended the ladies for their willing assistance in supervising at the beach, and reported that the use of the Legion Hut had been a great help. Mrs. Mary Hamar, one of the two ladies on the recreation committee, thanked all those who helped so willingly, giving special mention to Mr. and Mrs. Horsford for helping out when no one else was able to take the time. She said many helped supervise who were not parents themselves.

The pennant for the greatest number present at the meeting was won by Sister Mary's Grade 9 room.

Special speaker for the evening was Dr. Mackie of the Athabasca Health Unit who took as his subject, Your Health Unit. Dr. Mackie gave an outline of the work the health unit is doing, stressing the fact that care is taken not to overlap with the local doctor's practice. He spoke of the difficulty in handling all the work of visiting expectant mothers, immunization of

babies, polio shots and many other duties. He praised the local nurses, saying that they are overworked, but it was apparently impossible to get the extra help needed.

A film was shown on the subject of Poisons, which was enlightening. The doctor said two poison centers have been opened in the province, one in Calgary and one in Edmonton where expert advice can be obtained on the subject by telephone when required.

The chairman called for volunteers for a nominating committee to choose a slate of officers for the coming year. No progress was made in this direction and the matter will be dealt with at the next meeting. Coffee and doughnuts were served by the ladies at the close of the meeting.

Record Crowd Observes Gas Flare Lighting

LAC LA BICHE — The largest crowd in the history of the town was on hand for the lighting of the gas flare and ceremonies at the Ball Park, Sept. 26, according to Constable Calvert. Some persons sat in their cars for three hours before the ceremonies actually got underway.

Const. Calvert stated he was grateful for the assistance and co-operation of the Lac la Biche Volunteer Fire Brigade in handling the parking of the many vehicles. He also lauded the efforts of the Citizens Band in entertaining the restless crowd in spite of the rain, just prior to the lighting of the flare.

G. Moe Pastor Of Evangelical Church

LAC LA BICHE — Gilman Moe arrived recently from Frontier, Sask., to take over pastoral duties of the Hylo and Lac la Biche Evangelical Free Churches.

A graduate of Miller Memorial Bible Institute at Pambrun, Sask., Mr. Moe has also had a year of training at Seattle Pacific College. In addition he was assistant director of Youth For Christ in the City of Moose Jaw for two summers. During his training at the Bible Institute Mr. Moe travelled extensively through the United States as a member of a male quartette from the school.

Calgary Power Film on Alberta Highly Praised by Government

JOHN GRANT GLASSCO, the man who has the job of finding out how the Federal Government can streamline the civil service and cut down overhead says he's glad it's not a controversial problem: "People are as solidly against excess government spending as they are against sin." The vice-president of Brazilian Traction heads the Royal commission recently named by Prime Minister Diefenbaker.

Mickey Mouse In The Potato Patch

Various vegetables of gigantic size and unusual shape have been reported during the past few weeks and among the oddest is a potato in the form of Mickey Mouse found by Barry Yuzyk of 3509-133 St.

While Barry, eight years old and in grade 3, was helping dig the vegetables last week he unearthed the rodent-tuber, a potato fitted with eyes, a nose, a mouth and two ears, a perfect replica of Walt Disney's pet.

Barry proudly took the spud to school to show it to his teacher and classmates.

Most of us can always find an excellent reason for doing what we want to do when we want to do it.

Calgary Power has made a film on Alberta designed for tourists and persons considering moving here from other parts of the continent that has been received by the provincial government and businessmen with enthusiasm.

The film was shown to members of the provincial government last week and they ordered 75 copies for film exchange groups and commercial attaches in foreign countries.

Calgary Power is having 10 copies printed for domestic use, for film libraries.

Bill Ross, director of special services for Calgary Power, said that the film is the greatest bit of promotion work ever done for Alberta and puts things in terms that the government could never do without being accused of propaganda.

The film is aimed at families moving to Alberta.

The film describes the attractions of Alberta and its future.

It starts out explaining Chinooks, switches to the Rockies, to the slope in Northern Alberta and then dwells on Alberta industries.

Grain farming and cattle ranching is outlined, oil and natural gas works are explained, transportation facilities are pictured and the population centres of Calgary and Edmonton are shown in detail.

Their populations are shown, along with the mushrooming office buildings, planned industrial areas, suburban areas, Jubilee Auditoriums, hotel services, apartment buildings, motels, parks, schools and churches.

The living conditions are shown in fine detail, including low price houses, rich soil, low cost utilities, the lowest priced food and meat on the continent, education opportunities with two universities and many affiliated colleges.

Medical services and the prov-

ince's debt free status, are highlighted.

Outdoor sports, recreation facilities, national and provincial parks, indoor recreation centres, outdoor camping and other forms of self entertainment are shown.

The realistic film pictured 10 seconds of a Stampeder football game. This included one lost fumble and 20,000 disappointed fans.

Persons wanting to show the film may loan it from Calgary Power shortly and it will soon be available through the library.

The high cost of living so-called is not as important as the high cost of bankrupting the government.

Aluminum Links Power Stations

Aluminum cable is being used to link Edmonton's main power plant with a new sub-station. It may be a "first".

During recent tests the 72,000 volt cable performed satisfactorily.

The new power hook-up should be complete by Nov. 15. Cost, including sub-station and cable, about \$680,000.

The cable was laid under ground and is carried in an oil-filled pipe.

FOR THE FIRST TIME IN HISTORY, education ministers from nine provinces met to talk things over. Quebec Minister Paul Gérin-Lajoie was the first Quebec high level education authority to attend a national education meeting since the Duplessis regime. Federal aid to universities was a topic discussed. Attending the meeting were, front

row, Dr. George Dewar, P.E.I.; A. O. Aalborg, Alberta; R. L. Stanfield, Nova Scotia. Back row, left to right, A. E. Blaknet, Sask.; H. G. Irwin, N.B.; G. A. Frecker, Newfoundland; John Roberts, Ontario; Paul Gérin-Lajoie, Quebec.

'United Church Women' Name Adopted By Missionary Society And Auxiliary

The General Council of the United Church of Canada in Edmonton last week formally approved the formation of an entirely new woman's organization to replace the present WMS and WA and to be known as The United Church Women. Many points were considered and the wider responsibility of women was emphasized before final approval was given. The new organization will not come into being until January 1962.

A panel discussion was held in Metropolitan Church on Friday to acquaint interested women with details of the plan. The meeting was chaired jointly by Mrs. B. H. Hadlow, president of Presbyterian WMS, and Mrs. D. K. McElroy, president of Presbyterian WA. Moderator of the panel was Miss B.

Wilson, executive secretary of dominion council WA and speakers were Mrs. C. S. Patterson, president of dominion board, Mrs. K. R. Rose, past president of dominion council, and Miss Dorothy Young, secretary of the home mission board WMS. It stressed that in church administration women will have a greater and more responsible place with the men.

At local level much work must be done to prepare for the new organization and already much has been accomplished. Programs and plans for the first year's work are already in preparation and it is hoped that the coming year will see no slackening in effort as all women get ready for the change-over.

Orders Whisky But Gets Chaser

VANCOUVER — Mrs. Reese Davies of West Vancouver ordered Whisky and got a chaser instead.

Suspecting there was a bear in her back yard, she opened the back door and called in her small dog. Whisky

But the bear came instead.

Mrs. Davies retreated, backed through the house. The bear followed.

She opened the front door and the bear walked out.

Former Fort Mayor Honored Before Death

Shortly before the death last week of former Fort Saskatchewan mayor Charles Lowe, the Chamber of Commerce and agriculture recognized Mr. Lowe's service to the community with a life membership in the organization.

Since Mr. Lowe had been ill for some time and was confined to bed, the presentation was made at his home by the Chamber president Don Krebs, who expressed his thanks on behalf of the group to Mr. Lowe for his efforts in behalf of the town in past years.

A copper embossed shield he received stated "A job well done." Mr. Lowe was on the council for 15 years and was mayor for seven. His retirement was forced due to illness.

SCHOOL COMMITTEE MINUTES:

COMPLETE \$96,649 ADDITION TO SMITH SCHOOL, JAN. 31

Approval was given Sept. 13 to the committee decision to accept the bid of Sturgeon Construction Co. for the addition to the Smith school in the amount of \$96,649.00, with January 31, 1961, set as date of completion. There were several changes made in the specifications: substituting fir dimension for spruce, for a cost of \$1200, and substituting tile for sheet linoleum in the washroom at additional cost of \$1562.62.

The ATA convention, Nov. 2, 3, 4 in the Macdonald hotel, was tabled till the October meeting.

A new bus route has been established carrying children from Spruce Park school district to Richmond Park school, carrying 12 children.

Arrangements have been made for students in grades 10, 11 and 12 from Richmond Park to board in Athabasca and attend school there.

The decision of the conveyance committee was approved in setting out bus routes, in the sale of four buses and in the purchase of two new buses. One of the latter is a 42-passenger on the Clover View-Parkhurst route to Athabasca, and the other is a 30-passenger from Lewiston to Perryvale.

A discussion of the extension of Home Ec. and Industrial Arts to be taught in other schools culminated in the authorization of the chairman and superintendent to investigate the possibility of enlargement of the present set-up.

BOYLE REP. RESIGNS

Bob Remley, Boyle, resigned as representative for the village, as he has moved to Thorhild and is no longer resident in Boyle. There will be no replacement until the October 19 elections.

Accounts were approved.

A discussion of the Smith curling rink, which is on school grounds, was mulled over and left for the next meeting.

Eight requests for bursaries were granted, making a total of 20 this year.

The Highway Traffic Board is sponsoring a first aid course for school bus operators. They will be circularized and if enough in-

terest is shown arrangements will be made to hold the school.

The committee approved the schedule of the Boyle school in regard to noon hour supervision.

A request was granted the Latter Day Saints use of the Smith school.

ELLSCOTT TEACHERAGE

Plans were made to enlarge the teacherage at Ellscoff for a cost of \$1,300 as the principal has three children and no other suitable housing is available.

The sewerage system is still not working too well at the Grassland school, due to the raise in the water table. The committee approved purchase of a tank and vehicle to haul the tank. An addition of a water fountain at the Lower school at Athabasca was approved to accommodate the additional classroom. Improvement has been made to the Colinton school, gravelling, installing car plug-ins, fences, etc. Motion was made to install telephones in all schools where the facility was available. There are only two, Ellscoff and Lahaieville, who have not telephones. There is no service available at Calling Lake.

BOYLE VICE-PRINCIPAL

Martin Lunz was appointed temporary vice-principal of Boyle school.

Approval was given for the coun-

John Smar of Grimshaw was a visitor in the district.

The Farm Electric crew has moved out of the district to a new location.

The roads and streets in Atmore have recently been gravelled.

Mrs. Blanche Dakin made a trip to Edmonton where she wrote an examination on the material she studied at summer school.

Mr. and Mrs. Arthur Varen of Plamondon visited with Mr. and Mrs. Victor Genoud.

Mr. and Mrs. Bernard Dakin and family of Edmonton visited with friends and relatives in the district.

Mickey Benak was a recent business visitor to Edmonton.

Misses Shirley and Jean Fischer

ty to supply the customary dinner at the ATA convention in October.

Arrangements were made to present the grade 9 honor awards as in previous years.

The laggard student policy, implemented last year, will be continued with no basic change.

M. G. Gault, superintendent, gave his report. It was general, dealing mainly with the new members of the teaching staff. He felt there was a good staff. Miss Jean Young, who had been given a year's absence, returned voluntarily on Aug. 22 to spend considerable time instructing a substitute in the Remedial reading program which she had instituted last year.

Ben F. Shaw was appointed deputy chairman to replace Bob Remley.

Funeral Rite Held For Paul Tymchuk

Paul Tymchuk, 417-13 St., New Westminster, B.C., passed away at the age of 65 years.

He is survived by his wife Pauline; two sons, Alex of Red Deer and Peter of Royston, B.C.; three daughters, (Doris) Mrs. G. Richards, Calgary, (Mary) Mrs. J. Hock, Lac la Biche, (Natalia) Mrs. P. Kanoza, Craighend, and 15 grandchildren.

Funeral services were held Sept. 30 at 3:00 p.m. at Woodlawn Funeral Home, with Rev. I. D. Barnett officiating. Interment was in Frazer Cemetery.

Arseny Sawchuk Buried At Sarrail

SARRAIL — Funeral services were held for Arseny Sawchuk who passed away recently at the age of 79 years.

Born in 1881 in the Ukraine, Mr. Sawchuk spent most of his young years in that country. In 1902 he came to Canada with his wife Katherine. They lived in Montreal, Ontario and Edmonton before they took a homestead in this area.

Mr. Sawchuk was predeceased by his wife Katherine in 1940 and in 1948 his son Nick also passed away.

He is survived by two sons, Tony and Fred; four daughters, Mrs. Moroz (Nadie), Mrs. Gerela (Olga), Mrs. Marchand (Titiana) and Mrs. Shwetz (Tillie); 32 grandchildren and 25 great-grandchildren.

Funeral services were conducted

at the Sarrail Greek Orthodox Church and interment was in the church cemetery.

Pallbearers were Mr. Pasarowski, Andrew Hewko, Harry Hewko and Morris Tremblay.

South Hyllo

Alex McDonald was a visitor at his home over the weekend.

Miss Florence Joe is at present employed by Mrs. William Sawchuk.

Miss Elsie Delarm is now employed by Mrs. Andy Guinand.

Mrs. T. N. Sawchuk left last week to visit her daughter and son-in-law, Mr. and Mrs. E. Harder in British Columbia. She travelled with Mr. and Mrs. Sam Reid who are moving to the coast province to live.

Mr. and Mrs. L. J. Diesel of Owl River were visitors here Friday of last week for a delayed birthday supper in Mrs. Diesel's honor. Her grand-daughter Stella, nine years of age, baked her birthday cake.

LAC LA BICHE

Winter Brushing Still Not Decided At County Meeting

There was not much business from the minutes at the September meeting of the County Council. The winter works problem in regard to brushing is still unsettled. There was no reply to the gravelling project involving Mynio and Proctor; H. Bartoszewski's drainage complaint is still not settled; an offer to purchase a parcel of land was held off as it is leased and nothing may be done until next year.

At the Sept. 15 and 16 meetings, the appointed committees reported they had gone over the roads in Division 5; an application to cancel a road through Offroy's quarter was discussed and it was felt the road should be kept open. A perusal of the map indicated that there was only one survey road registered and it was decided to keep a record of the report and leave as it is until further investigation is made in regard to the new road.

Councillor A. Aloisio was appointed deputy chairman for the next six months.

After lunch the scrutiny of accounts was started, but left to take Andrew Kavulok who wanted a bridge at the SW 3-68-22. The Bridge Engineer's report indicated that the traffic does not warrant construction of a new bridge at the present time. It was said the bridge had been unsafe for so long that the traffic was going the other way in order not to use it. There was not much the council could do, but they agreed to attempt to supply stringers if Mr. Kavulok would do the work.

A school bus had been sold without proper authorization from the committee. The vendor and the purchaser appeared at the meeting and after hearing all the facts, the council decreed that the bus will remain in the hands of the former owner until the regulations are complied with.

DELEGATION

A delegation was appointed to investigate a drainage complaint at between 28 and 29-65-19. A complaint was reported in regard to telephone poles on lake lot property. It was said the lines had been established and the poles will be removed if he wished. His fence

is on the right of way and he will have to move the fence as soon as possible in order that road construction may proceed.

A discussion of policy in regard to culverts on high grades was left.

The matter of attending the Municipal District Convention in November 15, 16, 17, in Edmonton was left to the October meeting.

The request for the 1961 bridges was read. A number of the 1960 bridges were refused as the department felt they only served farmers in getting to their land and construction was not warranted.

The final bill was received on the last of the Tournapulls, and authorized paid. It was nearly \$4,000.

On Friday, a committee was appointed to investigate obtaining a right of way for a summer road for moving machinery.

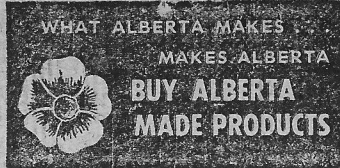

Pictures of the council were taken for the Handbook at the request of the Association.

A complaint in regard to a road on the SW 26-64-21 will be investigated.

A letter was read outlining the new regulations in regard to marking of road plans.

A letter from an aerial survey company who said they could locate substantial gravel beds in this manner was read. The council was interested and the secretary will write for prices.

CD COURSES

Three courses were offered by Civil Defence, but only one could be taken by the members of the council as they have had no previous courses. The matter was left.

A building permit was approved for a cabin at Sunset Beach.

Superior Communications Systems Ltd. requested a permit to erect a tower 500 feet west of the highway south of the town limits of the Town of Athabasca, bordering Fraser Avenue. The tower will be located on the NE 8-66-22. Approval was given.

Extensions were approved for the North Athabasca REA providing the lines were placed 51½ feet from the centre of the road.

A request for purchase of land was refused as the would-be purchaser owed back taxes on other property.

A request from ratepayers that the township 66-17-4 be withdrawn from the County was refused. A decision was made on this land last year and council felt the circumstances were still the same.

A letter of thanks was received from J. Appleby re the donation of \$10 for the summer school at Banff for two local students.

A loan was authorized to meet current expenditures.

The Agricultural Service Board recommended that the council purchase a truck for the weed sprayer for the 1961 season as the arrangements in 1960 were not entirely

Plamondon

Mr. and Mrs. Mike Stefanick made a business trip to town recently.

Mr. and Mrs. Fern Gibeau spent a few days here visiting at the homes of Mr. and Mrs. R. E. Piquette and the R. C. Piquettes and friends of the Venice district. Mrs. Gibeau is the former Rachelle Piquette, daughter of Mr. and Mrs. Jean Piquette formerly of Venice and now of Viny.

Johnny Burnette has returned to the district.

Andre Plamondon, son of Mr. and Mrs. Elmer Plamondon, has returned from Rocky Mountain House and is now being transferred to the Hudson's Bay Store in Lac la Biche.

THE BIG FOUR football league, has some highly touted passing threats this year, famous old hands like Sam Etcheverry and Tobin Rote, but an unknown Ottawa Roughrider quarterback, Ron Lancaster, has been making the passing headlines. He dethroned the high-flying Toronto Argonauts by out-passing Tobin Rote.

School Graduate Enters Convent

PLAMONDON — Rena Gauthier daughter of Mr. and Mrs. Willard Gauthier, entered the convent of Filles De Jesus in Edmonton as a postulant in the religious life.

Rena was born and raised in Plamondon. She was a devoted student and will be greatly missed by her friends in Plamondon.

Grassland

Nick Derko was a patient in the Lac la Biche hospital.

Cal Coverly has returned from hospital after an accident in which he lost the tip of one finger while coupling up a tractor.

Mrs. Francis Garnier is back from Edmonton with her son and daughter-in-law, Mr. and Mrs. Richard Garnier.

Ray McKenzie, who recently returned from Edmonton to live on the farm, is planning to build a new house.

Bursaries Given By School Board

LAC LA BICHE—Word has been received that four bursaries have been granted by the Lac la Biche divisional school board in education. Three in the amount of \$300 each have been granted for two years training to Raymond Ewas-kiw, Larry Meardi and Julius Oucher, and one for \$200 to Lena Menard for 1 year of training.

Lac la Biche

Mr. and Mrs. H. E. Carron motored to Fort Saskatchewan last week to visit their daughter and family, Mr. and Mrs. Walter Danyluk.

Mr. and Mrs. Herman Hartman and son Conrad and Mr. and Mrs. Paul Rud of New Salem, North Dakota, were recent guests at the home of their niece and family, Mr. and Mrs. Leonard Kolstad.

Rich Lake

Visitors at the Paul Mulyk home since their return to resume teaching duties here, include Mrs. Mulyk's parents Mr. and Mrs. Shapka of Bellis, and her sister and family, Mr. and Mrs. Metro Nikol-aichuk of Myrnam.

Terry Kumpula spent a few days at the home of his parents, Mr. and Mrs. Ray Kumpula.

Murray Ross and Wilfred Haimila, who are working on the Wheat Pool elevator construction at Bonnyville, spent the weekend at the John Ross home.

Bayview

Mrs. K. Rosevich visited her husband in St. Paul where they plan to move in the near future.

Miss Diana Mischuk of Calgary spent a few days with her family here.

K. Mormiton, also of Calgary, was a recent visitor to the district.

EDMONTON SYMPHONY ON SUNDAYS:

Afternoon Concerts Designed To Attract Country Audiences

The Edmonton Symphony Society will present a series of seven Sunday afternoon concerts this fall and winter in Jubilee Auditorium, Edmonton.

The concert time has been advanced from Sunday evening to 3 p.m. Sunday afternoon for the benefit of students and district audiences who have found the late hour inconvenient. In addition, the Symphony will present a special Christmas Box Concert December 27.

INTERNATIONAL STARS

The concert will be highlighted by the appearance of six internationally known guest stars and seven distinguished guest conductors.

Nadine Connor, noted lyric soprano of the Metropolitan Opera Co. will be the featured performer of the first concert Oct. 16. Frederick Balazs, violin virtuoso and conductor of the Tucson Symphony, will be the guest conductor.

Frederick Grinke, well-known British violinist and fellow and professor of the London Academy of Music will be guest star for the Nov. 13 performance. Walter Susskind, concert pianist and conductor of the Toronto Symphony will conduct.

EDMONTON PIANIST

Mark Jablonski, young Edmonton pianist presently studying at the Julliard School of Music, New York, will star at the Dec. 4 concert. Hans Gruber, conductor of the Victoria Symphony and the Vancouver International Festival will conduct.

January 15, Dr. Boyd Neel, Dean of the Royal Conservatory of Music, Toronto, will star as the guest conductor.

Nicanor Zabaleta, internationally known and respected as one of the finest exponents of the harp, will be the guest star March 12. Karl Rucht, Herr general musik direktor of the Heidelberg Orchestra, will conduct.

SIR ERNEST

The dean of Canada's composers and conductors, Sir Ernest MacMillan, will conduct the orchestra on its Feb. 12 performance. Leonard Rose, billed as one of the

world's great cellists, will appear as guest artist.

The seventh and final concert, March 26, will bring back popular Victor Feldbrill of the Winnipeg Symphony as guest conductor. Guest performer will be Ray Dudley, winner of the Eaton Award and the Geneva International Competition Unanimous Medal for extraordinary keyboard artistry.

POPULAR PRICES

Ticket prices for the entire series of seven concerts range from an amazing low of \$7 to \$22, with students memberships priced at \$5. This has been made possible by a grant of \$31,000 by the Canada Council to the Edmonton and Calgary symphonies. A number of private donations also have helped to subsidize the performances.

A comparable series of concerts elsewhere would mean prices of \$20 to \$50 for each season membership, officials said.

The sound in the Jubilee Auditorium is superb for seats in all price brackets.

It is pointed out that these concerts afford an excellent opportunity to arrange a family treat—coming to the city to enjoy a concert of live music, have a pleasant dinner, and return home leisurely at an early evening hour.

Membership may be obtained by writing, The Edmonton Symphony Society, c/o Hudson's Bay Company, Edmonton, Alta. A deposit of \$5 is required with each application for membership.

Every good citizen should support the church of his choice; civilization owes much to organized religion.

AS FINE AS NEW AS YOU CAN GO

Now! Full comfort, full luxury in a trimmer, full size car

With a car that's so new clean through, Buick was able to start right down on the ground and compromise on no component all the way up.

IT STARTED WITH AN ALL-NEW FRAME
Buick's new X-frame made way for lower door sills, a smoother, quieter ride, easier handling and better insulation of the body from road shock.

The new frame allowed a **NEW CONTROL-ARM SUSPENSION**
From this came flatter cornering and mirror-smooth going over the bumps as well as the highway. Buick has a new semi-floating rear axle, too! This combines what engineers call Torque-Tube Drive and Hotchkiss Drive—giving you the finest features of both.

The new axle allowed a **NEW HIDE-AWAY DRIVE SHAFT**
Buick put a totally new kind of double-joint into a 2-piece drive shaft. This let it bend down under your feet—and down went the hump in the middle to give you far more flat floor space than before.

Smaller than big

Bigger than small

THE BEST OF BOTH WORLDS

Now! The room, ride, go, pride of the costliest cars plus the savings and ease of the small
It took combined GM and Buick ingenuity to work the near miracle which made this car possible. Here is FULL-SIZE LIVING WITH NEW-SIZE CONVENIENCE.

COMFORT? STRETCH OUT!

The Special gives you more headroom than most new-size cars, more legroom than most new-size cars, more shoulder room than most new-size cars—and more total room for comfort.

CANADA'S ONLY ALUMINUM TRANSMISSION

Not another new-size car has it! New Dual Path Turbine Drive is the liveliest automatic in any car. It's like having two transmissions—one with an oil connection for infinite smoothness, the other with a direct mechanical connection for greater go and greater gas savings.

CANADA'S FIRST ALUMINUM V8

It puts the power in the Special. It develops astonishing power per pound. The Special got this power without adding weight. And there you have the start of a great gas savings story.

SAVINGS? TERRIFIC!

The Special gives you the gas savings of a compact without giving up go-power. It sells in a price area you'll like without giving up looks. The miracle explained: the smartest engineering in years plus the new wonder materials.

Another Link Found In Pakan's History

By HENRY T. THOMPSON

The Rev. George McDougall, with helpers Nelson, his son John and Peter Erasmus, built the first house at Victoria, later renamed Pakan which in 1863, became the first Protestant settlement in Alberta. A year later the Hudson's Bay established a post there. In 1865 and 67 the area was the centre of a settlement that extended up the river for 12 or 15 miles.

The river ford at Pakan was the only crossing between what was later to be called Fort Saskatchewan and Saddle Lake Crossing. The Pakan ford was used entirely up to the time of McDougall's arrival by Indians alone. The 160 arrowheads in Bobby Andruchow's collection is proof that the Indians used this ford as at the time of McDougall's arrival there were no Indians located at Pakan and there were less than 25 families in the whole area 50 square miles fronting on the Saskatchewan river.

Research in the history of this area only goes back to 1863 when the mission was started, therefore Bobby's collection of arrowheads must go back for several generations before that time. Bobby's collection was picked up on the surface in the last seven years from practically the same location on the farm of Lee Andruchow on the plateau behind the hills that back-ground the locations of the Mission and Hudson's Bay building on the north bank of the North Saskatchewan river.

Bows were made from choke cherry willows and the arrows from the Saskatoon willow. These, even in this day, form a jungle entanglement on the unused portion of the north river bank. These willows were chosen for their toughness and durability, straight grained texture and resistance to weather conditions after they were properly treated.

It is believed that the arrow and bow making trade was carried out by specialists, similar to the tradesmen of our day. It is unlikely that Bobby has found all the arrowheads that have been covered in centuries of arrow-making in this area. Pakan is considered to be one of the first places to carry on an industry that supplied munitions of

war and hunting to the prairie Crees. Bobby's collection is proof of the size of the industry.

The arrowheads are made out of chipped stone, the largest almost two inches long and an inch in width, while the smallest is less than a half inch in length and width. One wonders what kind of tools were used to form the smallest of these heads with such delicate thinness and exact dimensions that would challenge the ingenuity of modern tools. It must have involved a great deal of patience and skill with the crude tools of that day.

Charron

Mrs. Jacob Shapka was rushed to St. Catherine's Hospital recently and was later transferred to the General Hospital in Edmonton.

Mr. and Mrs. Bruce Coonan and Mr. and Mrs. Mickey Shapka of Wandering River recently visited the Jessie Fischer home.

Tommy Ihnicki, recently employed in British Columbia, is home for a holiday.

Peter Shapka, George Shapka, Jacob Shapka and Mrs. Sandy Karpetz made a recent business trip to Edmonton.

Albert LaRouzaic has purchased a 1960 green deluxe car.

Miss Shirley Fischer spent a night at Mrs. Roderick Baldwin's home recently.

Mr. and Mrs. Kenneth Fischer were recent visitors at the Jessie Fischer home.

Date To Remember

ATMORE — The annual St. Philip Parish bazaar will be held in the Atmore Community Hall on Sunday, October 30.

THE Homemaker

By BERTHA M. McCUTCHEON

"A residential school providing practical training for young people."

SPECIAL FEATURES

1. The "practical" nature of classroom studies.
2. The emphasis on shop and lab work.
3. The residential life and social experience.
